RE: NINETY-FIFTH WALES COVID-19 UPDATE

Dear Residents, Employees and Family Members,

Good news!!!! Results are in and **EVERY** resident is **NEGATIVE for COVID-19!** 49/50 employees received negative results; one result is still pending. We will immediately lift all isolations except for any resident showing cold/flu-like symptoms according to our standing policy. Currently there are only two residents in the RPA showing cold symptoms. Yesterday, an LPN tested positive for Covid-19 and Public Health was advised. Residents who were on isolation must have their symptoms monitored until January 24th inclusive.

All residents will resume their regular activities while respecting the 2-metre distancing and wearing a mask. Residents from Shaw/Manning 1 and 4th floor will resume eating in the living room effective noon tomorrow and residents from Shaw/Manning 2 will return to the dining room with the apartment residents.

Employees providing close care/services must continue to wear an N95 and visor until further notice. The entire building is now considered a Cold zone, therefore one N95 mask per shift unless soiled/wet.

We will continue to provide you with regular updates and will promptly notify you of any changes. Please do not hesitate to contact me with questions or concerns (my coordinates are listed below). You can also visit our website for updates: www.waleshome.ca/all-the-news.

Regards,

Brendalee Piironen
